We invite you to join our Grade A Maintenance Membership Program!

Lauren and I have always approached our business as a team. When we opened in 2012, Lauren handled the office and I took care of the plumbing. In 2018, we discovered a means of making you a part of that team by welcoming you to our exclusive membership.

With the Maintenance Membership Program's regularly scheduled safety inspection, you can maintain your plumbing systems by proactively heading off problems before they occur. You will face plumbing emergencies with confidence knowing that with our "Front of the Line" service, makes you our highest priority.

Our plumbers will make recommendations you can trust, now backed by the best warranty in our industry, the Maintenance Membership Program.

Welcome to our Team – Adam

GRADE A MAINTENANCE MEMBERSHIP PROGRAM

Membership Enrollment Form

All maintenance memberships require a minimum one-year contract. Warranties will remain in effect through credit-card loss or transfer, provided the transfer is made within 30 days of the missed billing, and charges are brought current. Cancellation of credit source or failure to bring charges current after 30 days will result in the termination of all warranties.

During this visit your Grade A Plumbing technician will make necessary adjustments, repairs, or replacements of eligible fixtures...at absolutely no cost to you. It is the responsibility of the member to schedule these inspections. A valid email address will allow us to send reminders to schedule these visits and to communicate credit-card processing errors should they occur.

We offer a warranty on most fixtures provided and installed by Grade A Plumbing Inc. Any eligible fixture that fails to perform as designed will be repaired or replaced, at no charge to the original purchaser for as long as the Club membership's maintained. Failure of fixtures through abuse, misuse, neglect, vandalism, freezing, or earthquake will not be covered. The results of ordinary wear and tear, such as scratches and blemishes, will not constitute cause for replacement.

Fixture installations must comply with local codes. Other conditions may be required for eligibility as determined by your Grade A Plumbing technician. These conditions may include, but are not limited to, installation of emergency shutoff valves, a pressure-reducing valve, and waste or potable water-line repairs. Maintenance or alteration of eligible fixtures by anyone other than your Grade A Plumbing technician may void warranty.

Filter changes for water-treatment products will be charged at normal membership rates whereas filter systems are covered by manufacturers or lifetime warranty depending on the club level purchased.

(All of the above is under the assumption that the work is preformed for the homeowner and the homeowner is the financially responsible party. When third parties are involved like a home warranty or insurance company, all warranties on items that are paid for by the third party are subject to their terms and conditions and no warranty is given through Grade A Plumbing Inc.)

To maintain warranties on eligible fixtures, we must inspect your plumbing system at least once a year.
